

Insights

Insights are the important messages relating to your store. They prevent you going Low in Stock or Out of Stock of key products. They report on new top products, good things done in-store and capital tied up in Dead Stock.

Depending on the type of Insight, you can email the insight to a colleague, view further information on product issues raised or add it to your 'To Do List' to deal with later.

Insights reveal, on a daily basis, the impact on your bottom line of making these suggested changes.

The Insights update daily, so it's important to have a staff member log in once a day, for just a few minutes, to see any important updates. Use the reports on an ad-hoc basis to see the performance of the store.

Gross Margin %

Definition

Gross Margin % is the difference between Sales \$* and the Cost of Goods Sold, expressed as a percentage of Sales \$*.

Calculation

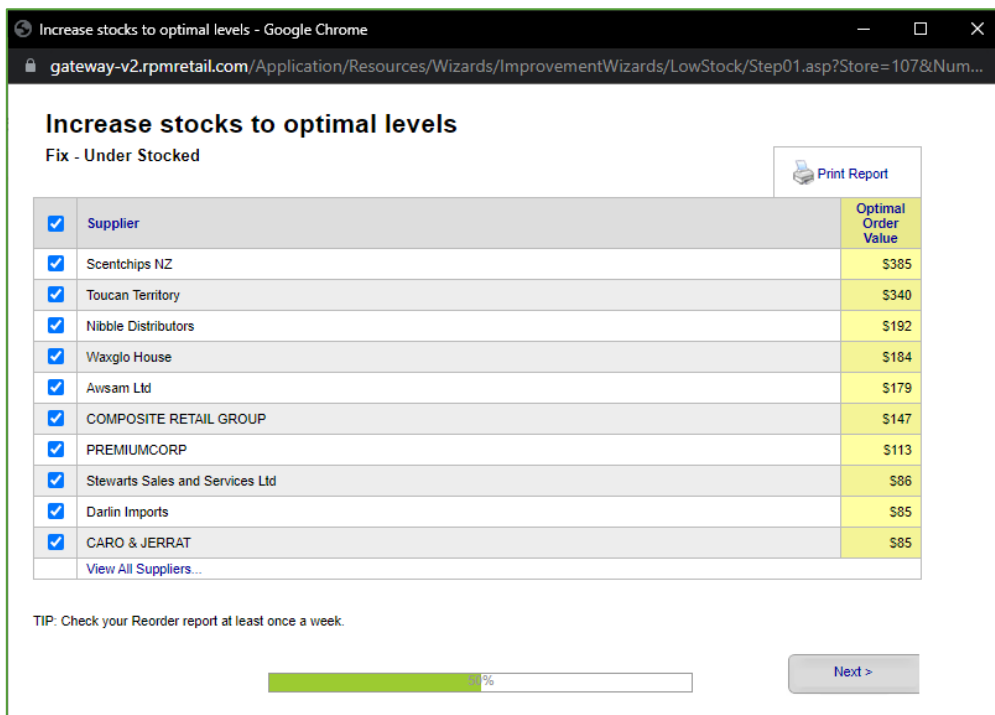

$(30 \text{ Day Sales } \$* - \text{Cost of Goods Sold}) / 30 \text{ Day Sales } \$*$

e.g. $(\$120,000 - \$60,000) / \$120,000 = 50\%$.

* Sales \$ are exclusive of GST.
